

# Choosing a View to Display Election Result Formats

The Integra Election Reporting Console provides four different **View Types** which can be used to display different types of information about an election that you select from the Home page.

**View Types** appear in a menu bar located at the top of each page.

The View Type that appears with a blue background is the active view. Those views that have red backgrounds are inactive. To activate a view, simply click on the menu item for it.

The four View Types are:

• Election View	• Precinct View
• Contest View	• Candidate View
